

Product specifications – TOM-Audio TG-200 for reportage for the blind

Usage in
the stadium

Receiver

At a glance:

- ✓ Transmission system for audio description
- ✓ especially compiled for visually impaired listeners
- ✓ Inclusive: Reception throughout the stadium
- ✓ Fan radio: Signal can be transmitted to PC
- ✓ Compact – transported in two carrying bags
- ✓ Eligible through Aktion Mensch e.V.
- ✓ Extremely small, light and robust
- ✓ Range: 400 meters

Good to know:
Special frequencies mean trouble-free transmission.

How do I use the TOM-Audio TG-200 for audio reporting?

This set of TOM-Audio TG-200 has been specially designed for audio reporting and is used wherever nationwide coverage is required. The signal is distributed over the stationary transmitter across the entire reception area – the range is 400 meters. This lets each listener choose their desired spot.

The reporters control the volume and levels of the system using the mixer, as well as the professional reporter headsets. These cover both ears and effectively block environmental noise. Through the headphone amplifier, the reporters can hear each other and adjust the volume of their headphones.

Each visitor wears a receiver with a neck strap and headphones. In this way, listeners can follow the action relayed by the commentators and enjoy the atmosphere at the same time.

Audio reporters:

Mixing console for controlling the system

+

Headphone amplifier for controlling the volume of the reporters' voices

+

TOM-Audio TG-200 ST distributes the signal throughout the stadium

Specifications

TOM-Audio TG-200 ST

Carrier frequency range:	HF 500 - 952 MHz
RF range (open field):	400 m
Signal to Noise:	> 50dB
Modulation:	GFSK
Audio sampling:	8KHz 16-bit
Latency:	20mS
Dynamic range:	> 80dB
THD at 1KHz:	<1%
Operating temperature:	-10 ~ 50' C
RF output power:	Hi: 10mW; Mid: 5mW; Lo: 2.5mW
AF input with level switch:	2, Combo XLR & 6.3mm jack; electro. Balanced; Aux -10dBV, Line +4dBu
Loop output:	2, 6.3 mm jack
Headphone output:	3.5 mm jack
Screen:	OLED
Antenna Jack:	BNC type
Power:	DC 15V / 1.6A
Dimension (WxDxH):	215 x 190 x 44 mm
Weight:	516 g

TOM-Audio TG-200R receiver

Sensitivity:	-88 dBm
Audio line out:	3.5 mm jack
Power supply:	li-polymer battery (3.7 V / 1300 mAh)
Operating time:	approx. 40 hours
Charging time:	approx. 6 hours
Antenna:	integrated
Dimensions in mm without antenna (H/W/D):	82 x 40 x 12
Weight:	approx. 48 g
Casing colour:	bronze

Reporter head sets

Weight :	240 g
Color:	black
Receiver:	circumaural
Rated impedanz:	80 Ohm
Frequency response:	10 - 30.000 Hz
Sound pressure:	100 dB
Microphon:	condenser microphone
directivity:	kidney
Frequency response:	40 - 20.000 Hz
Rated impedanz:	300 Ohm
phantom power:	12 - 48V necessary

Headphone amplifier

1 Input:	6,3 mm Stereo jack
Input - Impedanz:	100 kOhm
4 Output:	6,3 mm Stereo jack
Output - Impedanz:	80 Ohm
Dimensions in mm:	103 x 47 x 57
Power adaptor:	12 V

Mixing console

Audio-output:	2 microphone inputs; 2 Stereo Line 1 Aux Weg (post)
In - and output:	2 Track, Cinch + USB Audio Interface
Dimensions in mm:	195 x 248 x 50
Weight:	1,1 kg

TOM-Audio TC-35K transport and charging bag

Dimensions in mm (H/W/D):	approx. 370 x 460 x 180
Weight (in use):	approx. 8,8 kg
Charging slots:	35
Power supply:	Input: 5.0 V; Output: 5.0 V
Transmitter charging time:	approx. 6 hours
Receiver charging time:	approx. 6 hours
Colour:	black

Warnings:

- The device may only be opened by the manufacturer. Incorrect handling can cause the Li-Po battery to explode!
- Old and/or defective devices must be disposed of separately from household waste!
- The internal batteries must only be charged using the specially designed charging systems (CS25 / CS56) (limited SELV source, 5V / 700 mA per single device).
- The devices should only be used in a dry environment and must be protected from moisture!
